ITAM WORX

THE SERVICES COMPANY THAT WORKS FOR YOU...

SAAS MANAGEMENT

MANAGED SERVICES OVERVIEW

Helping organisations manage their SaaS spend

Our SaaS Management & Optimisation Managed Service is a set of scheduled activities to ensure organisations SaaS spend is being managed and controlled effectively ensuring economic value and cost benefits.

What's Included?

This will be achieved through the following key activities:

- Baseline review of current licenses and agreements
- Tool operation and data management
- Data interpretation, consultancy, and licensing support
- User and license management
- Regular reporting and Service Reviews

This will allow organisations to:

- Confidently have the assurance that SaaS spend is being actively monitored and managed
- Provide opportunities for optimisation of SaaS spend and potential savings/reductions
- Manage any considerations, implications and risks associated to the SaaS applications
- Assist you in making informed commercial decisions and understanding total cost of ownership
